On a separate sheet of paper answer the following questions by placing the corresponding number next to the answer. (In ink or typed) There is no minimum or maximum length, but explain fully what you did. *Please submit any surveys, comments, or feedback on your CTA role. 1. How did you complete your plan? (What happened, what did you do?)

On January 23, 2016 at the CTA Extravaganza, I did a presentation and passed out flyers listing achievement pins and awards and a poster of a completed 4-H hat. Then I gave small groups of members 5 minutes each to take the pins, stripes, stars, etc. and put them correctly on a 4-H green hats.

2. What did you learn from this project or plan and what did others learn?

I learned to not be afraid to do things and to ask for help. I also learned to give my presentation within a time limit and tweak my presentation every time depending on the audience I was presenting too.

I think others learned what to do with their pins and awards and what kinds of pins they can get for their hat.

3. What were the strengths and weaknesses of your plan/project? What unexpected things, good or bad happened and how did you handle them? What things would you have changed or done different?

Once I was there and started, I was able to do really well. My weakness was getting everything done ahead of time. Nothing unexpected happened. I would have been more confident in myself ahead of time.

4. How many 4-H members, clubs, organizations or people did you reach with your plan?

I reached almost 45 members from six different 4-H clubs that attended the CTA Extravaganza.

4. Do you feel that your plan was successful overall? Why or why not?

Yes I do, because once I gave the presentation I was able to do it and do it well. I felt like all the 4-H members learned something and could take the information back to their clubs.

5. If you could tell us anything about your plan and how you completed it that has not already been answered, what would you tell us?

I will definitely do better and learn from my mistakes next time.

6. What things would you change about the CTA Body of Work? What things helped you the most in completing your plan?

I think it was a good outline so we weren't overwhelmed, but the CTA's should still not be discouraged from doing something else.

I think the visual poster boards and flyers helped me to complete the plan. Talking about my completed hat helped also.
