August 1, 2013

Greetings from UC Davis,

We are writing to ask for your participation in a survey of PCAs, consultants, and other agricultural advisors investigating wood-canker disease management in grape, pistachio, and almond. We hope to learn about the practices that agricultural advisors recommend for preventing and managing wood-canker diseases. This survey is part of a broader research project, funded by the USDA, and involving USDA researchers, UCCE farm advisors, and faculty researchers from UC and other institutions.

Your participation in this survey is extremely important to obtaining representative responses from all types of agricultural advisors and regions of California. Your responses will help researchers and extension agents more effectively target future research, education, and extension efforts. You may also find this survey interesting and useful in thinking about your own disease-management decisions.

We greatly appreciate your time in answering this survey. As a small token of appreciation, if you complete the survey, you will be entered in a drawing for one of 10 \$100 Amazon gift certificates.

You may have previously received a similar announcement for this survey from UC Davis, CAPCA or another of your contacts. If you have already completed the survey, thank you very much for your participation and please disregard this announcement.

Please participate in the survey by clicking on the following link:

[UC Davis PCA Wood-Canker Disease Management Survey](https://ucdavispolysci.qualtrics.com/SE/?SID=SV_dmVuDe81u915ZGJ)

You can also participate by copying and pasting this URL into your web

browser: https://ucdavispolysci.qualtrics.com/SE/?SID=SV_dmVuDe81u915ZGJ

If you have any questions or concerns, please do not hesitate to contact our research team.

About the UC Cooperative Extension

The University of California Cooperative Extension offices are local problem-solving centers. Campus-based specialists and county-based farm, home and youth advisors work as teams to bring the University's research-based information to Californians. UCCE is a full partnership of federal, state, county, and private resources linked in applied research and educational outreach. UCCE develops and extends timely and pertinent information in a manner, which is independent, unbiased, noncommercial, and research based. These fundamental criteria set it apart from all other information resources.
