About the UC Cooperative Extension

The University of California Cooperative Extension offices are local problem-solving centers. Campus-based specialists and county-based farm, home and youth advisors work as teams to bring the University's research-based information to Californians. UCCE is a full partnership of federal, state, county, and private resources linked in applied research and educational outreach. UCCE develops and extends timely and pertinent information in a manner, which is independent, unbiased, noncommercial, and research based. These fundamental criteria set it apart from all other information resources.
