

**April 5, 2019**

## **UPCOMING MEETING EVENTS:**

**Save the Date:** Thursday, April 18, 2019

**Where:** UC Davis Conference Center

**When:** 9:00am till about 5:00pm

### **Honoring Larry Williams**

Professor Larry Williams retired from UC Davis in June 2018 after 36 years in the Department of Viticulture and Enology. Please join us for a special seminar, honoring Larry, focused on irrigation and water management, topics near and dear to Larry's heart. The day will consist of presentations focused on the latest research regarding optimal vine water management, a grapevine water status technology panel, and a vineyard management panel. The day will conclude with a keynote lecture from Emeritus Professor Larry Williams. This is a who's who of water management and irrigation, a program not to be missed!

Please join us after the program for a wine and cheese reception in Larry's honor. This is the perfect opportunity to interact with Larry and all of the speakers.

8:30-9:00: Registration and Coffee

9:00-9:15: Welcome

9:15-11:30: Research-focused presentations chosen by Larry: *Kaan Kurtural, Megan Bartlett, Alexander Levin, Andrew McElrone, and Ken Shackel will cover everything you need to know about grapevine water management.*

11:30– 12:30: LUNCH

12:30-1:30: Grapevine Water Status Technology Panel: *Tom Shapland, Thibaut Scholasch, and Mark Greenspan*

1:30-1:45: Break

1:45-2:45: Vineyard Management Panel: *Daniel Bosch, Francisco Araujo, Mark Battany*

3:00-4:00: Keynote Lecture: *Larry Williams*

4:00-5:00: Wine and Cheese Reception

### **REGISTRATION INFORMATION:**

Cost: **\$225.00** includes continental breakfast, lunch and all tastings and handouts

## May 8-9, 2019 | South Coast Winery, 34843 Rancho California Road, Temecula, CA

Plan to join us for this integrated vineyard management short course featuring UC faculty, Cooperative Extension specialists and farm advisors who will provide an in-depth, comprehensive study of all phases of grapevine culture and production.

The program is based on the latest information and research and will cover the fundamental principles that form the basis for practical decisions and include Q&A for each session, quality time with instructors and networking opportunities.

View the detailed agenda [here](#).

**Who should attend:** New and experienced growers as well as other industry members interested in commercial grape production.

### Register to learn more about:

- Vineyard planning, design and development
- Grapevine variety and rootstock selection
- Evaluation and modification of water and soils
- Grapevine training, pruning and canopy management
- Physiology of the grapevine
- Irrigation scheduling
- Proper use and maintenance of irrigation systems
- Mineral nutrition and fertilization
- Integrated pest management of insects and diseases
- Precision viticulture
- Quality & harvest concerns
- Impact of climate change on grapevines

The registration fee of **\$550** includes breakfasts, lunches and coffee breaks during the course, and two days of instruction with over 20 presentations.

Feel free to contact [UC ANR Program Support](#)

### About the UC Cooperative Extension

The University of California Cooperative Extension offices are local problem-solving centers. Campus-based specialists and county-based farm, home and youth advisors work as teams to bring the University's research-based information to Californians. UCCE is a full partnership of federal, state, county, and private resources linked in applied research and educational outreach. UCCE develops and extends timely and pertinent information in a manner, which is independent, unbiased, noncommercial, and research based. These fundamental criteria set it apart from all other information resources.
